

# A CAREGIVING EVENT

sponsored by the Healthy Community Partnership and Academic Division, Spiritual Care and Chaplaincy

*An award-winning play, The Actual Dance is one of the most beautiful love stories ever told. A graceful and inspiring journey through the uncharted waters of illness, where the resilience and power of the human heart ultimately persevered.*

*When first noticing his wife at the age of 16, Sam could not predict the profound connection they would share—they are two halves of the same whole. In their 33rd year of marriage, that love was tested ... and the ringing in Sam's ear was not as one would expect, in fact it was an orchestra, playing the music of his life.*

**Thursday, June 18**

2 p.m.\*

Asthma & Allergy Center Auditorium  
Johns Hopkins Bayview Medical Center campus
